

New Product Release

FINZER  ROLLER™

Easy-Fit™ Sleeve System*

In response to the needs of the two piece can making industry, Finzer Roller is excited to announce the release of their patent pending **Easy-Fit™ Sleeve System** that can be used on OV or base coating applications. This proven system addresses the needs of the industry. Documented benefits of our system include:

20.0"

- Reduced coating usage – Field testing has shown to reduce coating usage 5% by providing a more even distribution.
- Improved product quality – applies a more consistent overlap and thickness through the improved quality standards
- Reduced set up and change out times – Allows a one-time setup, sleeve change outs are quicker and more reliable since it will be positioned in the exact spot as the previous sleeve.
- Reduced misalignments – saves damage to roll surface
- Reduced scrap – Reduces defective product caused by improper roll setups
- Eliminates two way shipping of the roll covering
- Eliminates safety concerns- no need to lift heavy hubs when installing.
- Available sizes: 17.5", 20.0", 24.0" diameter (sleeve assembly varies by size)

17.5"
