

## Perma-Feed III

*Roll Covers for the Corrugated Industry Where Performance Counts!*

**Perma-Feed III** is a soft and long wearing compound specifically designed for corrugated board feed rollers. Its dual construction and superior formulations produces exceptional line performance and product quality.

### Product Features

- Tough outer layer for maximum durability and excellent wear resistance
- Soft inner layer provides a flexible cushion that minimize “crush” on corrugated board
- Improved geometrical design creates additional flexibility to minimize board “crush”
- Surface characteristics promote better gripping and registration alignment
- Superior formulations and precision grinding helps eliminate skewing
- Wears at least 30% longer than standard feed rollers

**Available for use on all types of finishing equipment without core modification-**  
Avoids unnecessary expense in changing OEM specifications of core
